INDEX.

Abbe, Cleveland. Faye—on Espy's Problem in Meteorology..... 348
Accident to Tank of Holder, Buffalo Citizens' Gas Co..... 242, 324
Adhesion, Laws of. Cleveland Abbe..... 121
Air Bags for Raising Vessels..... 387
Algeria, Proposed Inland Sea in 196
American Association for Advancement of Science..... 3
American Association for Advancement of Science on Weights and Measures..... 222
Andrews, Matter in Liquid and Gaseous States..... 198
Atlantic City Water Works and Drainage..... 6
Atmospheric Gas Engines..... 262

Barker, Geo. F. Notice of Resignation as Editor..... 23
Bibliographical Notices:
A Century After..... 88
Franklin Institute, Report of 27th Exhibition..... 24
Proceedings of Institution of Civil Engineering..... 229
New Method of Graphical Statics..... 376
Manual of Introductory Chemical Practice. Caldwell & Breneman..... 230
Building Construction, Notes on..... 24
Storms. Blasius..... 230
Birkinbine, H. M. P. Stand-Pipe..... 234
Blast Furnace Banked up 217 days..... 86
Blast Furnaces, Manipulation of..... 157
Boiler Connections, Fracture of. Manchester Steam Users' Association..... 19
Boiler Explosion. W. B. Le Van..... 233
Boiler Heating, Feed Water of..... 241
Boilers, Magnetic and Galvanic Condition of Material for same. C. M. Cresson and Editor..... 340
Boilers, Magnetic and Galvanic Condition of Material for same. Coleman Sellers. 370
Brick Houses, Moving. C. S. Close..... 178
Brick Wall, Moving of..... 152
Bridge, Railroad, Ironwork and Masonry, Specification of. J. M. Wilson..... 116
Bridge, Alteration of Piers of Connecting Railway, over the Schuylkill..... 376
Bridge, Burning of Market Street..... 378
Briggs, Robert. Gas Works Engineering..... 242, 324
Building Construction, Notes on..... 24
Bunsen Burner, Non-Retreating 377

Calender Rolls, J. Morton Poole's Production of Cylindric Surfaces of..... 377
Carbonic Acid Gas, Physical Properties of. J. W. Nystrom..... 355
Carillon Machine..... 193
Centennial Exhibition..... 16, 84, 154
Chemical Arts, Progress in. Hoffman, A. W..... 43, 126, 274, 428
Clock Regulation in Paris by Electricity..... 158
Close, C. S. Moving Brick Houses..... 178
Coinage, Silver..... 83
Commission on Water Supply of the City of Philadelphia..... 1, 79, 218, 292, 368
Commission, U. S., Test of Iron and Steel..... 33
Cooley, Leroy C. Theory of the Thermoscope..... 134
Coral and Coral Islands. Dana..... 208
Crespin, M. A. Pneumatic Telegraphs..... 280, 401
Cresson, C. M. Effect of Magnetic and Galvanic Forces on Iron and Steel Structures..... 340
Crookes, Wm. Mechanical Action of Light..... 52

Dana. Coral and Coral Islands..... 208
De Chaumont, F. Abstract of paper on Ventilation. Editorial..... 426
Decimal System..... 339
Deep Sea Sounding, Challenger's Scientific Work..... 13
Dozen, Value of a..... 159
Dudley, C. B., Method of Comparing and Sounding Air Columns..... 287
Durfee, W. F. Rules for Calculating Weights of Steel Bars..... 215
Durfee, W. F. Pernot Furnace..... 89, 180

Edgerton, Oxy-Hydro-Carbon Light..... 3
Editorial:
Bibliographical Notices..... 24, 88, 229, 230, 376
Metric System..... 145
Construction of Iron Vessels..... 217
Product of Sugar in Louisiana..... 285
Perpetuation of Error in Text Books—Lap of the Slide Valve..... 289
Flanged Pulleys..... 304
Lowell Pumping Engines..... 305
Note on Effect of Magnetic and Galvanic Forces on Structures..... 340
Note on Pulley Arms..... 164
Note on Smith's Paper on Quantity of Air, etc., accompanying Respiration..... 358
Governmental Requirements and Patent Rights..... 361
Abstract of Paper of Dr. F. De Chaumont on Ventilation..... 426
Effect of Magnetic and Galvanic Forms on Iron and Steel Structures. C. M. Cresson..... 340
Efficiency of Screw Propellers. B. F. Isherwood..... 84, 104, 165, 253, 393
Engines, Lynn and Lowell Pumping. J. H. Harlow and Editor..... 305
Engines, Present State of Cornish..... 321
Errata..... 177, 288, 372
Exhibition, Franklin Institute, Report of 27th..... 24

Exhibition, Loan, of Science and Art at the Kensington Museum..... 372
Explosion in a Drug Store in Boston..... 72
Explosive Mixture, Dangerous..... 125
Export of Iron Manufactures from Philadelphia..... 28

Faye—Meteorological Problem of Espy. Cleveland Abbe..... 348
Fire Extinguishers on board Ships. Paton & Harris..... 7
Flame, Illuminating. H. Pemberton..... 419
Flames, Vibratory, Method of Comparing Sounding Tubes. Bresina. C. B. Dudley..... 287
Fleming, Howard, Metropolitan Railway..... 236
Franklin Institute, Announcement of Lectures, season 1875-6..... 295
Franklin Institute, Proceedings of Meetings, June to November, inclusive, 1875. 8, 223, 296, 373
Franklin Institute, Report of 27th Exhibition..... 24

Gas Engine, Atmospheric..... 262
Gas, Natural, for Puddling Iron..... 83
Gas, Natural, use of Extending..... 207
Gas Works Engineering. Robt. Briggs..... 242, 324
Goodyear, R. B. Shuttle Box Mechanism..... 302
Governmental Requirements and Patent Rights. Editorial..... 361
Gramme Machine for Illuminating purposes..... 418
Gunpowder, Useful effect of, in a Cannon..... 408

Harlow, Jas. H. Lowell and Lynn Pumping Engines..... 305
Heating Feed-water of Boiler..... 241
Hell Gate Channel, Improvement of..... 221
Hoffman, A. W. Progress in the Chemical Arts..... 43, 126, 274, 428

Illuminating by Gramme Machine..... 418
Iron and Steel, test of, U. S. Commission..... 33
Iron and Steel Structures, Effect of Magnetic and Galvanic Forces on. C. M. Cresson..... 340
Iron in the United States, Consumption of, yearly and per capita..... 160
Iron Manufactures, Export of, from Philadelphia..... 28
Iron Vessels, Construction of. Editorial..... 217
Isherwood. B. F. Propelling Efficiency of Screws..... 34, 104, 165, 253, 393
Isherwood, B. F. Review of Experiment on Centre of Gravity of Steamer "Shawmut."..... 29

Jet Blowers or Apparatus, Kœrting's..... 80
Jonval Turbines with Pumps. Emile Geyelin..... 25

Kensington Museum, Loan Exhibition of Science and Art at..... 372
Kœrting's Jet Apparatus..... 80

Lap of the Slide Valve..... 289
LeVan, W. B. Steam Boiler Explosion..... 233
Lectures before the Franklin Institute, 1875–76..... 295

Light, Edgerton's Oxy-hydro-carbon. Edgerton 3
Lighting by Gramme Machine 418
Light, Mechanical Action of. Wm. Crookes 52
London Docks, East London Railway under 317

Magic Lantern, New Form of 300
Mandril, Flexible, for Bending Pipes. Oram 228
Mansfield, A. K. Strength of Pulley Arms 161
Matter in Liquid and Gaseous States. Andrew, Dr 198
Mechanical Laboratory, proposition for. R. H. Thurston 409
Meta-brom-toluol 159
Meteorology. Faye—on Espy's Problem. Cleveland Abbe 348
Metric System of Measures and Weights. Editorial 145
Metropolitan Railway, "London." Howard Fleming 236
Microscope, Wonders of 354
Morris, W. E. On Destruction of Railroad Bridge, Big Black River 41
Moving of Brick Wall 152

Negative Photographs, Dry Glass. Leon Warnerke 67
Nystrom, J. W. Physical Properties of Carbonic Acid Gas 355

Oram. Flexible Mandril for Bending Pipes 228
Orr, Hector. Origin and Spelling of word Wane-edged 229

Patent Rights and Governmental Requirements 361
Pemberton, H. Theory of Illuminating Flames. Karl Heumann 419
Pernot Furnace. Armengaud. W. F. Durfee 89, 180
Phonometer, a Time Regulator for Length of Sound Signals 21
Photographs, Negative, Dry Glass 67
Photometry by Electricity 273
Plaster Casts, Preservation of 15
Plush, S. M. Quadruplex Telegraphy 265
Poole's, J. Morton, Process of making True Cylinders 377
Premium, Scott Legacy. Magic Lantern. Geo. Wale & Co 300
Premium, Scott Legacy. Shuttle Box. R. B. Goodyear 302
Pressure Gauge for 54,000 lbs., Shaw's 88
Proceedings of Meetings of the Franklin Institute 8, 223, 296, 373
Perpetuation of Error in Text-Books 289
Puddling, Iron, by Natural Gas 83
Pulley Arms, Strength of. A. K. Mansfield 161
Pulleys, Flanged. Editorial 304
Pyroleter, or Fire Extinguisher. Paton & Harris 7

Rail, Tee, Origin of the Stevens so-called Vignole 4
Railroad Bridge, Failure of, at Big Black River. W. E. Morris 41
Railway Safety and Practice. F. T. Bramwell 252
Railway, East London, under London Docks 317
Respiration, quantity of Air, etc., accompanying. Note on Smith. Editorial 358

Scott Legacy Premium. See Premium.
Sellers, Coleman, upon Electrical condition of Iron in Boilers..... 370
Shaw's Pressure Gauge for 54,000 lbs..... 88
Ships' Fire Extinguisher. Paton & Harris..... 7
Shuttle Box Mechanism, Improvement in. R. B. Goodyear..... 302
Silver Coinage..... 83
Smith, Edward. Note or paper upon Respiration. Editorial..... 318
Sounding Deep Sea, "Challenger."..... 13
Stand Pipe. "Water." H. M. P. Birkinbine..... 234
Steam Boiler. See Boilers.
Steel Bars, Rules for Calculating Weight of. Durfee, W. F..... 215
Steel in Engineering Practice..... 73
Sugar, Product of, in Louisiana. Editorial..... 285

Telegraphy, Quadruplex. S. M. Plush..... 265
Telegraphs, Pneumatic. M. A. Crespin..... 280, 401
Thermoscope, Theory of. Leroy C. Cooley..... 134
Thurston, R. H. On a Mechanical Laboratory..... 409
Tunnel, British Channel..... 87
Tunnel, River Mersey..... 144
Tunnel, Mt. St. Gothard..... 316

Useful Effect of Gunpowder in a Cannon..... 408

Ventilation. Note on Dr. Smith. Paper on Quantity of Air, etc., accompanying Respiration. Editorial..... 358
Ventilation. Dr. De Chaumont. Abstract of paper with Editorial Note..... 426
Vessel, Raising by means of Air Bags..... 387

Wane-edged..... 152, 229
Warnerke, Leon. Glass Negatives in Dry Photography..... 67
Water Supply Commission of City of Philadelphia..... ...1, 79, 218, 292
Water Works and Drainage of Atlantic City..... 6
Water Works, First, in the Country..... 144
Weights and Measures, Metric System. Editorial..... 145
Wilson, J. M. Bridge Specification..... 116
